Attachments: Substantiation letter to Oxitec c of K Matthews.docx

Here is the substantiation letter. Please note, this letter is off the template developed by the General Law Office in OGC.

As Don was explaining this process will most likely take some time and more importantly, after Supreme Court ruling last year in the Argus case, confidentiality claims have broaden. Basically, if a company say its private and they have not publicly disclosed the information, it is to be considered confidential.

Once we send the letter, the matter will be in GLO's hands.

Earl

Earl and Sharon,

This document looks good and I have replaced the original version with this one in the docket. I'm not sure what the next step for it to go live is, but let me know if we need to do anything on our end.

Also, we would like to continue with the CBI substantiation process for the CBI claims made. Please let me know if there is anything we need to do to continue that process as well.

Thanks.

Eric,

Please take a look this redacted copy. If you agree it covers all of Oxitec's markings, please load in FDMS and replace it for the original copy if it is loaded.

You can removed "Redacted" from the file name if you like.

Let me know if you have any questions.

Sharon,

Below is the password for the CBI highlighted RA provided by Oxitec. Let me know if there are any issues.

Thanks.

Hi Eric,

The password for the document just sent is Ex. 6 Personal Privacy (PP)

Thanks,

Keith

Good morning Eric,

I hope that you are well.

As we discussed yesterday, attached is version of the OX5034 EUP Human Health and Ecological Risk Assessment with Oxitec CBI identified as highlighted text.

The document is password protected, and I will send an email with the password separately.

Please do not hesitate to email or call, if you have any questions.

Best,

Keith
